Profile

- Senior Financial Analyst with treasury and financial research experience, combining **financial analysis** expertise with advanced **Python** data analysis capabilities.
- Adept at identifying key trends through **data monitoring** and translating complex financial insights into **impactful presentations** for senior management, committees and colleagues.
- Creates compelling **visualizations** and dashboards using Python (including ML/NLP/AI implementations), SQL, and Power BI to drive data-informed decisions.
- Innovative thinker who excels in **communicating** complex financial concepts through effective data storytelling.

Experience

Constructor Academy + Arthur Weber AG   Zürich, Switzerland | Feb 2025 - May 2025

Data Science & AI Full Time Intensive Program + Automation Project

- Executed an AI Data Automation Project for Arthur Weber AG as final project.
- Course topics include: Data Analytics, Machine Learning, Artificial Intelligence & DevOps (Python/SQL programming).

UBS Switzerland   Zürich, Switzerland | Oct. 2020 – Dec. 2023

Credit Analyst of Financial Institutions | Wealth Management

- Analysis and monitor the credit quality of a portfolio of financial institutions (balance sheet, P&L, central bank policies, capital markets trends, regulations, economics), publishing reports regularly. Interact with investment professionals and present my recommendations, research and financial views to colleagues and clients alike.
- Experience interacting regularly with senior management coordinating projects/research reports across multidisciplinary and international teams.

Allied Irish Banks (AIB)   Dublin, Ireland | August 2017 – Sep. 2020

Senior Credit Analyst, Bank & Country Credit Team | Treasury

- Credit analysis and research of financial Institutions, Sovereigns, gov. Agencies, GSE, ABS, MBS, RMBS, Cov. Bonds and collateral/structure of secured instruments.
- Prepare credit reports and present/discuss them in credit risk committees and with senior management. Set and monitor exposure limits.
- Responsible for a quarterly financial report & its presentation. Take part in Projects where a credit/limits perspective is needed.
